Bly, Michael (Micky)

Senior Vice President, Head of Global Propulsion Systems, Stellantis N.V.

Michael "Micky" Bly is senior vice president, head of global propulsion systems - Stellantis N.V. In his role, he is responsible for core powertrain engineering, as well as electrification, which includes leading the company's expansion into hybrid and electric vehicles.

Previously, Bly was head of powertrain engine engineering, FCA – North America. Before joining FCA, he spent five years at American Axle & Manufacturing Holdings Inc. where he held various jobs of increasing responsibility in Europe and North America, including his most recent position as global vice president of product management electrification. He also spent 23 years in engineering positions at General Motors Co., which included powertrain and vehicle electrification. He worked in the U.S., England and Germany.

His work and academic background includes:

- 2021- current, Senior Vice President, Head of Global Propulsion Systems, Stellantis N.V.
- 2019, Head of Global Propulsion Systems, Fiat Chrysler Automobiles N.V.
- 2019, Head of Powertrain Engine Engineering, FCA – North America
- 2018, Vice President of Global Electrification, American Axle & Manufacturing Holdings LLC
- 2017, Vice President of Global Sales, Driveline and Electrification
- 2014, President and Managing Director of Europe Driveline
- 2012, Vice President of European Powertrain Engineering, General Motors Co.
- 2009, Global Group Executive Director
- 2004-2009, Various Powertrain, Electrification and Engineering Positions
- 1990-2004, Various Engineering Positions

Bly holds a master's degree in engineering, science and technology from Rensselaer Polytechnic Institute in Troy, New York (2003), and a bachelor's degree in mechanical engineering from Georgia Institute of Technology in Atlanta, Georgia (1990).

He also currently serves on the boards of Big Brothers Big Sisters of Metro Detroit and Michigan Science Center.

Bly was born in Augusta, Georgia.
