Trail Time! Full Lineup of Ultra-capable, Utterly Efficient and Unmistakable Jeep® and Jeep Performance Parts by Mopar Concept Vehicles Head to the 57th Annual Easter Jeep Safari

March 10, 2023, Auburn Hills, Mich. - The Jeep® brand is headed back to its 'home away from home' – Moab, Utah – for the 57th annual Easter Jeep Safari, scheduled for April 1-9, 2023. For more than five decades, thousands of enthusiasts and Jeep brand loyalists have gathered to take part in one of the largest off-road gatherings in the world, hosted by Moab's Red Rock 4-Wheelers club.

Just when you thought the Jeep brand couldn't push the limits any farther, an entirely new collection of eye-catching, mission-capable concept vehicles will be unveiled and driven aggressively during the annual event. The Jeep brand and Jeep Performance Parts (JPP) by Mopar design teams are bringing their A game to create several one-of-a-kind, rock-crawling, terrain-traversing vehicles that will take four-wheeling to the next level and prove why there's nothing quite like legendary Jeep 4x4 capability.

Several "trail markers" leading up to the event will provide clues for what's in store for this year's Easter Jeep Safari lineup. The first Jeep and JPP sketches hot off the drawing table hint at two of the new concept vehicles, including one 4xe electrified Jeep SUV set to conquer Moab's tumultuous backcountry trails in absolute silence and further highlight the Jeep brand's vision of accomplishing Zero Emission Freedom.

More information will be available on the [2023 Easter Jeep Safari](#) newsroom.
